Project Pitch

Our preferred format is pitch to camera. If submitting a pitch to camera, you will need to supply a link (preferably Vimeo or YouTube) and the video must not exceed 3 minutes.

We recommend that you start working on your pitch video well ahead of the deadline so that you have enough time to work through any tech issues, as late applications cannot be accepted.

Here are some tips for crafting a compelling video:

- The pitch video is not a sizzle reel, although you can use images or clips to help communicate your project's tone or look
- Production quality is less important - you can shoot it on your mobile and edit it on a laptop
- The pitch video does not have to be done in a single take - feel free to edit as you see fit
- You don't have to be in the pitch video but it's worth considering that you're probably the best advocate for your project and what the panel might miss by not hearing directly from you
- Use your three minutes strategically - do not rehash the synopsis or other written materials submitted as part of your application

How would you like to submit your pitch? *
